In addition to her work on the board, she is active in several international ISACA working groups. Read more about her motivation in the [ISACA Now Blog!](#)

PUBLICATION

New book "IT Governance" by authors Michael Klotz / Matthias Goeken / Martin Fröhlich published as the third book in the ISACA Germany Chapter book series

The long-standing editors of the ISACA Germany Chapter's journal, Michael Klotz, Matthias Goeken and Martin Fröhlich, describe the fundamentals and fields of action of IT governance in a practice-oriented and systematic manner. These fields of action as well as mechanisms and measures for implementing IT governance are presented in an integrated manner and the diverse cross-references are discussed. The practical implications are highlighted in the form of recommendations for action.

At the same time, it serves as an aid and as a reference work for meeting the many challenges of IT governance in daily practice in a professional manner and with sustainable benefits.
