EXPERTS TOGETHER

In his presentation, **Erik Gremeyer**, owner and founder of ATM Consulting, will provide a comprehensive overview of the development and integration of management systems (IMS) using established frameworks and best practices. The focus will be on ITIL, IT-Grundschatz, BCM, ISMS, QMS and TISAX. The aim is to bundle the various approaches that contribute to ensuring the quality, security and continuity of IT services into a coherent system. The presentation explains methods for the efficient integration of these models in order to utilise synergies and avoid redundancies. It will also look at how companies can effectively prepare for audits by implementing systematic processes and continuously working on optimising their IMS. Practical examples and experiences from various industries will round off the presentation to give participants valuable insights into successful implementation strategies.

You will receive **1 CPE** for your participation. Further information and the link for **registration** can be found [here](#).

She@ISACA Meetup in Hamburg

She@ISACA has set itself the task of strengthening the female signature within the ISACA community in the areas of cybersecurity and governance, risk management and compliance (GRC). Networked groups are already emerging in various cities such as Frankfurt, Cologne, Leipzig, Munich and Stuttgart - and now Hamburg is also well on the way to becoming an integral part of this initiative. The kick-off will be an exciting event on **8 April 2025**.

The event will be hosted by BDO AG Wirtschaftsprüfungsgesellschaft under the leadership of ISACA member [Corinna Kulp | LinkedIn](#) (Partner in IT & Controls Assurance). The event is entitled 'AI Awakening: Who keeps control?' and is dedicated to two essential topics that are increasingly taking centre stage in the course of digital transformation: corporate culture and cybersecurity. Both perspectives ultimately pursue the same goal - to strengthen companies and organisations so that they can act in a self-determined and resilient manner in the face of the challenges of a dynamic, digital world.

Unfortunately, this She@ISACA event is already fully booked, but new dates will be posted on our [website](#) soon.
